Significant Representative Matters

- Obtained a defense verdict on behalf of a nursing home in Cuyahoga County. The case involved a 75-year-old resident who fell, fracturing his hip, and died. The medical examiner ruled that the death was accidental and due to the fall. The plaintiff claimed inadequate fall precautions and failure to assess appropriately after the fall against the skilled nursing facility, and requested punitive damages. The plaintiff's Final Pretrial Statement demanded \$7 million. After three days of trial, the judge granted a directed verdict for the defense.

Defense Verdict in Ohio Medical Malpractice Case

We obtained a medical malpractice defense verdict on behalf of a skilled nursing facility in the Cuyahoga County Common Pleas Court in Cleveland, Ohio. The children of an 82-year-old skilled nursing resident brought a lawsuit after their mother developed shingles and associated meningitis and passed away. They claimed the facility had inadequate infection control and failed to identify signs/symptoms of developing changes in their mother's condition. The defense proved the facility offered the appropriate vaccinations that were required by the state of Ohio and that the standard of care did not require the facility offer or administer the Shingrix vaccine to its residents. They also proved the facility properly monitored the resident's signs and symptoms; that she did not exhibit any classic signs or symptoms of shingles at the facility; and that the facility timely sent her to the ER for evaluation when her condition changed. In closing arguments after a five-day trial, the plaintiffs asked the jury for \$3 million. The jury deliberated for 75 minutes and returned with a defense verdict.
