Results

Successful Trial Result Achieved in a Philadelphia Premises Liability Matter

We received a successful trial result in a premises liability matter in Philadelphia Court of Common Pleas. The plaintiff's expert projected future surgeries and extensive life-long medical care costs of \$1.25 million. Much of our defense centered on damages and demonstrating that the projected future medical care was not supported by the actual medical treatment provided. Additionally, video of the incident was used to demonstrate that the plaintiff had actual/constructive knowledge of spilled water in the premises but proceeded to walk in that area anyway. Forty percent comparative negligence was assigned to the plaintiff, and despite the plaintiff's introduction of the medical cost projection described above, only \$50,000 in future medical care was awarded by the jury. The total award, after a molded verdict, was \$118,800, which our client viewed as a victory in this venue.

Real estate agency dismissed from litigation.

The defense prevailed on a motion to dismiss our real estate agency client. The plaintiff filed counts of fraud, deceit, misrepresentation, conspiracy, conversion, invasion of privacy-false light, breach of contract, and promissory estoppel against the agency regarding an allegedly fraudulent transfer of a private residence by the co-defendant seller of the property. We filed preliminary objections, arguing that the plaintiff's claims lacked sufficient specificity and that the plaintiff failed to state a claim upon which relief

may be granted. The court dismissed all claims against our client.
