- Successfully litigated a motor vehicle accident where the pretrial demand was \$75,000. The two car collision occurred in Scranton, where the plaintiff's vehicle was stopped at a traffic signal at a three-way intersection. The defendant's vehicle was attempting to come to a stop behind plaintiff but the driver depressed the accelerator rather than the brake causing the defendant to rear-end the plaintiff's vehicle pushing it 75 feet into the intersection and causing significant property damage. Liability was conceded. The matter was tried before a Lackawanna County jury on damages only. Despite evidence of permanent cognitive issues the jury returned a verdict well below both the pretrial offer and demand.
